FIVE CENTS THE COPY

New Telephone Numbers Affect Beach Districts

NEW DIRECTORY
SHOULD BE CONSULTED
IN PLACING CALLS

Beginning at midnight tonight, Saturday, April 3, the new numbers in the latest telephone book will become effective, according to an announcement issued by Manager C. A. Stevens of the Pacific Telephone and Telegraph Co., who also states that copies of the new book should be in possession of all subscribers by April 6, and it is now quite essential that all telephone users refer to the new book before placing a call until they become thoroughly familiar with the change in numbers.

OFFICIAL STATEMENT
Through the courtesy of Mr. E. C. Raymond, publicity director for the telephone company, "The Beach News" has been furnished with the following detailed statement by Manager C. A. Stevens regarding some very important changes that have been made in the numbering system here in preparation for the introduction of metropolitan methods of operation next November 1:

THREE DIRECTORIES
"In line with the company's \$2,000,000 program to keep San Diego's telephone system up to date and to preserve its ability to care for the city's growth, the plan is to spread the necessary changes over three different directory issues. The first of the changes in working toward the metropolitan numbering plan were in the directory issued last September. Another portion of this work will be completed in the book just distributed; and the final changes will be made at the time of the actual opening of the new main office at Ninth and C streets. Breaking up the changes into three different directories gives the necessary time to handle the big job efficiently and with a minimum of error."

CHANGE TO BAYVIEW
"Point Loma telephones will be involved in one of the most important changes scheduled for the present directory. Because the name 'Point Loma' is not suitable as a telephone prefix in the more modern method of operation, the number designation of 850 telephones will be changed to 'Bayview.'"

NAME AND FOUR DIGITS
"Every telephone number, under the coming system, must consist of a prefix or office name and four digits, as this type of number is most convenient. In the new numbering plan the spelling of the telephone prefix or office name is of importance, as the first letter or first and second letters, capitalized, are an essential part of the telephone number. On the telephone dials there are letters as well as numbers, each number from 2 to 9, inclusive, being grouped with three letters. For instance, P, the first letter of Point Loma, is grouped with 7, and O, the second letter, is grouped with 6."

PROVISION FOR GROWTH
"When the new methods go into use, all calls from dial telephones will be made by dialing the first letter of the office name and the four numerals. It will not be necessary to utilize the second letter of the prefix as a part of the telephone number, as a five-digit numbering system is adequate for the present needs of San Diego. Provision has been made, however, for the second letter of each office name to correspond to a definite number, so that in the years to come, as San Diego grows and more telephone numbers are needed, the only steps necessary to raise this numbering system to a 'six-digit basis' and thus provide hundreds of thousands of additional numbers, will be to instruct telephone users to dial the first two letters of the office name and the four numerals."

TWO WORDS UNSUITABLE
"In selecting prefixes or office names under this new numbering system, experience has proven that names consisting of two words, such as Point Loma, are unsuitable, due to the uncertainty which arises as to which capitalized letter should be dialed as a part of the telephone number. If both the first and second

NEARLY \$80,000 FOR HOUSING CONSTRUCTION

**BEACH PROGRESS
REFLECTED IN SUBSTANTIAL
BUILDING ACTIVITY**

From statistics gathered through the courtesy of Manager W. H. Rab-sahl, of the Ocean Beach Lumber Co., it is learned that building activity in the beach district for the first quarter of the year 1926 has kept step with the great progress being made throughout the city of San Diego. In the immediate Ocean Beach section the permits issued during the past three months total the splendid sum of over seventy-five thousand dollars and there is good evidence to believe that the total for the present quarter will reach the hundred thousand dollar mark. The adjoining beaches and Point Loma also show a steady upward trend along with Ocean Beach, where many improvements are now in the making.

James J. Pendergast has taken out a permit for a cottage at 4872 Del Monte avenue, to cost \$1000.
J. Kynder has obtained a permit for a \$4000 cottage at 4511 Brighton avenue.

PAVING AND MORE PAVING

Contractor Hazard has about completed the paving of Bacon street, and has already begun the work on Niagara avenue and expects to make short work of it.
The city council this week granted a petition for the paving of DeFoe street, full width, to Point Loma avenue. This will provide full width paving all the way from the business district of San Diego through Ocean Beach to Sunset Cliffs.

A COOKED FOOD AND APRON SALE

will be held Saturday, April 10, by the ladies of the Altar society, on Newport Ave., Opp. post office. Adv.

PROSPECTIVE SEA WALL FOR OCEAN BEACH

**COMMITTEE REPORTS FAIR
ASSESSMENT PROPOSITION
AWAITING MORE DATA**

That Ocean Beach residents have not given up the hope of building a seawall was evidenced by the report of the committee appointed at a recent meeting of property owners.

Since the matter was placed in the hands of the city manager, the committee has been interviewing a number of those owners of property on the water front and finds that those already seen are willing to bear half of the expense of the improvements, the other half to be borne by the district.

Mr. John Fitzpatrick, chairman of the committee, states that they are awaiting data to be furnished by the city engineer for a similar improvement at Mission Beach, before calling another public meeting to discuss the matter.

Those in charge of the detail work believe that with those who will benefit most being willing to pay half, and the wall not being so long, with such a large district to assess, the individual amounts to be paid would be light.

STRAND RADIO CO. TELLS A TRUISM

"Jimmie" Bowker, of Bowker & Deuell, says that "If there was a better radio made than the Federal Orthosonic, the Strand Radio Co. would be selling it." And that's a fact beyond the slightest shadow of a doubt. Just to prove it, stop in and listen to the Federal in action at the Strand Radio Co.'s headquarters on Newport avenue.

Pickering Pier Permit Obtained

CONTRACT AWARDED
FOR CONSTRUCTION WORK
COSTING \$100,000

Last Saturday, March 27, the Pickering corporation took out a permit for the construction of a pier into the ocean at Pacific Beach at a cost of \$100,000, and a contract for the construction work has been let to Charles Staffgen. The pier will be located at the foot of Garnet street and the permit calls for frame and concrete construction.

Mission Beach News-Notes

By Beth Van Dorston Paynter, 3792 Mission Blvd. Phone Pac. Beach 771
Press Representative, Mission Beach Chamber of Commerce.
Special Representative for "The Beach News"

JOIN THE C. OF C.
Have you joined the Chamber of Commerce? If not, why not? Give your name and your dollar for a year's dues to any of the officers and join the ranks of the Beach Boosters. A membership card will be duly mailed to you.

ELECTION OF OFFICERS
At the recent annual meeting of the Mission Beach Chamber of Commerce the following officers were elected: C. C. Robertson, president; Thomas E. Thorpe, vice-president; Harry K. Turner, secretary; Louis Shapiro, treasurer; Beth Van Dorston Paynter, press representative. The executive committee consists of J. A. Harris, chairman; Dr. F. A. Lush, Mrs. O. M. Van Dorston, Fred S. Jennings and Louis Shapiro.

Let's all get behind these officers and stay there.

CLEAN UP OCEAN FRONT

While we are waiting for the seawall, which will take months to complete, shall we leave our ocean front covered with debris and inaccessible to residents and guests? Or shall we get together and clean it up, repair the board walk where feasible, build steps down to the sand and get ready for the summer which is almost upon us, and which has all the indications of being by far the most active season we have known? We expect twice as many people on the beach this summer as we had last. Shall we allow them to go home with stories of how Mission Beach is so dead that the remnants of a storm which occurred last February are still littering the beach. Mr. John Dougherty and Louis Shapiro have each donated a keg of nails toward this work. Ed Biele, Al Harris, Thomas Thorpe and half a dozen other men have offered their time and labor. Some donations of money have already been received. Mrs. Chappel has offered to serve coffee and sandwiches to the workers. Let each one of us feel the satisfaction of knowing we have done our bit. Any donation, however small, will be sincerely appreciated. Each day and hour that the ocean front remains in its present condition is a knock for Mission Beach.

PARKING ON HIGHWAY

The Chamber of Commerce has petitioned the city council to rescind the drastic parking ordinance now in effect along the main highway. The chamber is asking that the law be changed to allow one hour's parking between Portsmouth court on the south and Seagirt court on the north. Some eighty names of property owners and residents of the Beach were signed to the petition.

THE NEW LIGHTS

According to a letter received by Mr. R. N. Ink from G. H. P. Dellman, lighting sales engineer for the San Diego Consolidated Gas & Electric Co., the bracket lamps ordered installed on existing poles now along Mission boulevard will be put in early in May.

BOOST FOR A SEAWALL Subscribe for "The Beach News."

SEAWALL STATUS

At the last meeting called to discuss the prospective seawall, it was stated that in the normal course of events it would be at least thirty days before City Manager Rhodes and City Engineer Jorgensen could give their time and undivided attention to the matter of the seawall. A committee consisting of G. C. Robertson, J. A. Harris, Captain McCully and Judge Chambers was appointed to wait upon Mr. Rhodes and present the urgency of the seawall matter to him, asking that some matters of possible less importance be postponed and the seawall substituted.

"THE BEACH NEWS" O. B. SKATING POLO TEAM

SKATING EVENTS CAUSE
KEEN COMPETITION AT
M. B. ROLLER RINK

Manager Ed. A. Kickham reports that the Mission Beach Rink polo team outplayed the Old Town team by a score of 4 to 0 on Tuesday evening, March 23, when the Old Town delegation achieved the honor of being the first team to score against the Mission Beach team in twelve games played by Kickham's star aggregation. Some of the teams defeated include the Carlson and Simpson, 4 to 0; Cycle and Arms, 7 to 0; Hazard-Gould, 1 to 0; City Rink All Stars, 3 to 0; Thirty-first Division, 2 to 0; and they beat the Carlson teams at broom ball in Carlson & Simpson company's rink, 2 to 0.

OLD TOWN VS. OCEAN BEACH

The Old Town polo team defeated "The Beach News" team of Ocean Beach at the Mission Beach Roller Rink last Tuesday, March 30 by a score of 4 to 3.

RETURN GAME NEXT TUESDAY

A return game will be played next Tuesday at Kickham's M. B. skating palace by the Old Town team and "The Beach News" Ocean Beach team. The contest promises to be a humdinger from start to finish. Be there—all ye skating fans!

ROSTER OF THE TEAM

The personnel of "The Beach News" team of Ocean Beach includes George Northern, Loyal Near, Preston Humason, George Sturtz and Andy Ozmun. The Old Town team is composed of Joe Tenini, Louie Tenini, Clifford Daup, "Fat" Qlis and Roy Cortez. Lester Near will be timekeeper and Dan O'Rourke will act as referee.

RAJA-YOGA PLAYERS TO
PRESENT "THE TEMPEST"

IN GREEK THEATER

Shakespeare's "Tempest," which Katherine Tingley will produce in the open-air Greek theater at Point Loma, on April 16 and 17, stands apart from the rest of his great works. It is one of the last plays he wrote—possibly the last play he intended to write—for an element of lofty, serene pervades the whole drama. Man's tempestuous emotions, his conflicting desires, petty ambitions, his scheming and plotting, are portrayed once more, but are now recognized for what they are "such stuff as dreams are made on."

LIFE'S TRUE MEANING

The stormy period of his middle life, during which Shakespeare wrote a group of tremendous tragedies which includes "Hamlet" and "King Lear," with their terrifying conflicts and their emotions strained to the breaking point, he has outgrown when he starts to write "The Tempest." He has matured, has gained a deeper conception of life's true meaning, and so, while still describing elemental passions, they are looked at from above, so to speak.

BENEVOLENT MAGIC

All the elements of great tragedy are still present in "The Tempest"—Sebastian and Antonio, plot to dispose of Alonso, King of Naples, and his honest old Counsellor, Gonzalo, while Caliban, a savage and deformed slave, proposes "to drive a nail through Prospero's head." But in this play evil meets with a new opponent—Prospero's wisdom and compassion. Against his benevolent magic, evil proves powerless, and so, toward the end of the play, harmony is restored, the lovers are reunited and bitter enemies become friends once more.

Tickets for these two performances can be had at Thearle's, 640 Broadway, and at the Theosophical Bookstore, 1269 Fourth. Phone Main 6472.

MEMORIAL SERVICES IN TEMPLE OF PEACE

Memorial services were conducted by Katherine Tingley and members of her cabinet last Monday afternoon in the Temple of Peace, International Theosophical headquarters, Point Loma, in honor of Francis M. Pierce, who passed away at his Lomaland home Saturday evening after a long illness. Mr. Pierce was one of the pioneers of the theosophical activities at Point Loma, of which he was the business manager in the early days.

Photographs—Froide—Bacon St.

MERRY-GO-ROUND STARTS SEASON NEXT SUNDAY AT OCEAN BEACH

Under the management of R. R. Davis, son of "Ollie" F. Davis, the Merry-Go-Round on Abbott street, at the foot of Santa Monica avenue, will be opened tomorrow (Sunday) afternoon for the regular spring and summer season of 1926. The operation of the Merry-Go-Round will be under the immediate direction of Raymond Whalen, a clever and well-known local mechanic. The carousel will be opened on Sunday afternoons only until later in the season.

GROCEER FABER GRATEFUL

Sincere thanks are extended by Grocer G. H. Faber to all those who so kindly came to his assistance last Tuesday morning, when his horse met with a mishap. Good Samaritans helped to rescue the animal after it had slipped into a deep and miry hole.

ANNUAL BAPTIST CHURCH MEETING

On next Wednesday evening, April 7, the members of the Ocean Beach Baptist church will hold their annual meeting. A supper will be served at six o'clock, followed by annual reports and election of officers.

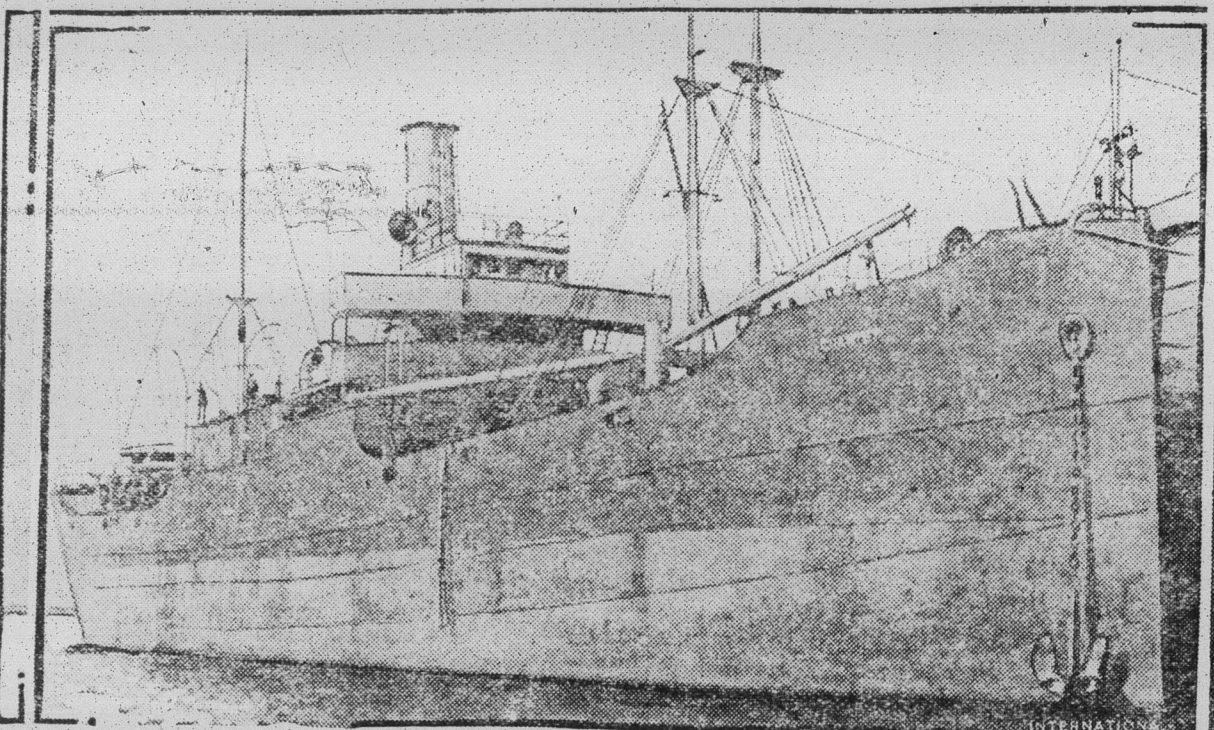

"Patronize Home Industry"

New American Church in Paris

Dr. Joseph Wilson Cochran, pastor of the American church, with trowel in his hand, officiating in the groundbreaking ceremony at Paris. The church will stand at the corner of the Quai D'Orsay and Rue Jean Nicot.

Ship Selected for Navy's Polar Expedition

The U. S. Chantier, a 3,000-ton lake steamer, has been selected by Commander Byrd, in command of the United States navy polar expedition, as the floating base of operations for his party. The Chantier is being outfitted and reconditioned for its part in the dash to the pole, in which navy planes will play a prominent part. The ship is to be anchored near Spitzbergen, from which position the planes will make their hop to the northernmost regions.

Youths Speedily Punished

Three days after William Stoller, Jr., eighteen, and Arlon Horst, twenty, admitted killing Fred Stoller, seventy-three, grandfather of the former, they were sentenced at Mandan, N. D., to life imprisonment at hard work. Sheriff Charles McDonald of Morton county rounded up the lads a week after the murder and brought about their confessions.

Army Airmen Study Planes

Maj. John D. Beardon (left) and Lieut. Col. Roy C. Hirtland of the army air service now on duty at the army college. They are shown studying a model plane.

PUZZLES POLICE

The Paris "Mystery Man," alleged murderer, who is charged with a hundred crimes committed under perhaps a hundred or more different names. His true identity is not known to the police, who have just taken him into custody.

DAUGHTER OF "WOLF"

Alice Worthington, daughter of the "Wolf of LaSalle Street" who died recently in Atlanta prison, says the will which purported to dispose of an estate of \$3,500,000 is a fake. She says her father left not more than \$250,000 and it all belongs to her.

CALIFORNIA NEWS BRIEFS

With complete outfits of new clothing including overcoats supplied by the Salvation Army, fourteen Japanese sailors returned to Japan on March 11, on the S. S. Java Arrow, which picked them up January 18 from the drifting Daishin Maru No. 3. Without water for three days and with no food for fifteen days but rats caught by the ship's cat, the sailors were temporarily blind and had to be carried from their helpless ship when rescued. Upon arrival in San Francisco, they were met by Captain Kobayashi of the Japanese Division of the Salvation Army, cared for, reclothed, given a sight seeing trip through the city a luncheon at a hotel, warm overcoats for the home voyage and \$2.00 each for personal needs. Upon their return to Japan the sailors will be aided by the Japanese government.

Ernest E. Williams of San Jose and Richard M. Lyman, Jr., of Oakland were appointed recently as assistants to United States Attorney George J. Hatfield. They take the places made vacant by the resignation of Thomas J. Riordan and George F. Snyder. Mr. Williams is a graduate of Stanford University where he obtained degrees of A. B. in 1917 and J. B. in 1920. He will handle prohibition cases for the government. Richard M. Lyman, Jr., graduated from the University of California, receiving degrees in 1915 and 1917. He was assemblyman from Alameda county in 1923. He has been assigned to customs work.

The State Department of Agriculture employs one of the few women sealers of weights and measures in the United States. Mrs. May E. Johnston has been sealer of weights and measures in Humboldt county for twelve years. She recently completed a survey of the county creameries and tested the weights of over 4,000 cartons of butter and all creamery scales. A few years ago a woman qualified as deputy horticultural commissioner in Fresno county, and another was a squirrel inspector in Kings county.

A prominent San Francisco real estate man announced recently he would open a fish restaurant in San Francisco soon in which each patron will be required to "catch his own." He explained that the restaurant would be fitted with large glass tanks bountifully stocked with fish, and that as the would-be diners land their finny entrees, the cook will take them off the hook and rush them to the frying pan or broilers, to be served to the lucky anglers when desired.

Capacity of the Pacific Packing company plant at Oakdale, Stanislaus county, is to be increased 50 per cent by the addition of one complete unit. Not only is the company to increase its capacity but it is to greatly broaden its activities to handle new fruits. A new building, 32x110 feet will be built and equipped with the most modern machinery in the way of syringers, pitters, slicers, packing tables and everything that goes to make up a modern cannery.

What is believed by William Anwyll Jones of Fair Oaks, Sacramento county to be a flock of wild or passenger pigeons making a home in his eucalyptus grove not far from his home. The flock has twenty-five or thirty birds in its make up and corresponds to the general description of the wild or passenger pigeon so numerous thirty or forty years ago, when from the Gulf to the extreme northern latitudes they were very common, but suddenly disappeared.

An American flag which is said to be the first ever raised in California has been offered to the state as an historical relic by Bert H. Stambaugh. Stambaugh says the flag is thought to have been brought around the Horn by members of a little known expedition which sailed from the Atlantic coast shortly after the Revolutionary war.

More than half the voters in Placer county have already registered. County Clerk A. S. Fleming, of Auburn says the total is 4,909 to date. Republicans have a big lead in the county with 3,199 claiming membership. There are 1,425 Democrats; sixty Socialists; fifty-four Prohibitionists and 180 persons who decline to state.

A committee of fifty citizens of Flournoy, Placenta and Corning, Tehama county met at Flournoy and plans were made for leasing some 20,000 acres of land to an oil company of southern California, for a period of ten years, the work of development to be commenced within two years from now.

An official protest has been lodged with the Waterford, Stanislaus county, chamber of commerce against gold dredging in the Tuolumne river. Silt is being constantly thrown up and will cause water plants and weeds to grow, making the river a marsh and bog instead of a clear river.

Contractors who have the contract to construct the tunnels for the Bucks Ranch power project of the Feather River Power company near Oroville, Butte county are rushing work of camp establishment in the Grizzly Creek district. Snow is now nine feet deep at Letterbox.

Anthony Milne of Scott Bar, Siskiyou county, is the oldest man in Siskiyou. He reached the rare old age of 94 years on March 16. He is temperate; he is happy; he is diligent; he is an early riser and as early to bed and the age of a century is not so old, says Milne.

John Studebaker and J. A. Gyger, will soon open a broom factory in Healdsburg, Sonoma county.

Davis, Yolo county, business men held the first meeting for the purpose of organizing the Davis rotary club.

The Graton community club of Sebastopol, Sonoma county has set the date for the annual wildflower show April 7.

The state highway commission met in San Francisco March 17, to consider road reconstruction in the San Joaquin valley.

Mrs. Mary Williams, Weaverville, one of the oldest pioneer residents of Trinity county, is dead at the home of her daughter, at the age of 88.

Champions of labor, 300 delegates to the State Building Trades Council of California, met in Marysville, Yuba county, for the twenty-sixth annual convention.

Mrs. Rebecca Jane Ivory, one of the few remaining pioneers, of Lodi, San Joaquin county, who crossed the plains with an ox team in 1854, died at the age of 80.

The Rose Carnival committee of Santa Rosa, have arranged further details for the festival in May, which it is promised will astonish everybody by its beauty of detail.

Plans are already being discussed for the annual run of the Oakdale, Stanislaus county, chamber of commerce to Yosemite valley, to mark the opening of the Big Oak Flat road.

Harold McFarland of Redwood valley, Mendocino county, caught an eagle with an 11-foot wing spread, in a trap. The big bird had been preying on lambs on the sheep ranges.

Plans for a flower and fern festival to be held May 1 and 2, at Auburn, Placer county, are being discussed by the Woman's Auxiliary of the Richard W. Townsend Post of the American Legion.

With a view to securing a community clubhouse at Coloma, Eldorado county, the Coloma-Lotus farm center, appointed three committees to investigate the project and to report at an early meeting.

After a search over a large part of the Pacific coast, Placerville, Eldorado county, has been selected as the site for the new experiment station to be established by the Eddy Tree Breeding institute.

During the two years that Adjutant General R. E. Mittelstaedt has been in command of the California National Guard, the total number of officers and men in this service has increased from 3,493 to 5,238.

The house bill authorizing the government to sell some lots to the city of Stockton, at \$1.25 an acre for the purpose of flood control was ordered favorably reported by the senate public lands committee.

Voters of the Newcastle grammar school district, Placer county, will vote on March 26 on the question of voting \$20,000 in bonds for an addition to the school building. The present building has been outgrown.

That the Afghan Welfare association, with headquarters in Sacramento will attempt to seek recognition from the federal government of a standing befiling their race was the statement made in Oroville, Butte county, recently.

At a saving of \$315, vocational students in the woodworking department of the Stockton high school at Stockton are making 24 desks for the use of teachers. Cost of the desks retail would range from \$35 to \$40 each. They cost the school \$13.50 apiece.

The citizens of Citrus Heights, in Sacramento county, turned out recently to repair the roads in this district. It is an annual affair and besides supplying their labor the people furnish tractors, horses, scrapers and other equipment.

Three machines are now digging the upper end of the main canal that is to bring Sacramento river water by way of Haas slough for irrigation of District 2068, comprising 13,600 acres of land lying to the southeast of Dixon, Solano county.

Cantaloupe planting will be under way in the near future in Stanislaus county by reason of favorable weather conditions. The acreage will probably be somewhat less than last year. The small growers will plant as usual but the large growers will go lightly on this crop. It is estimated that between 2,500 and 3,000 acres will be planted to cantaloupes this season.

With the West Coast Theaters Corporation preparing to build a new theater and office building in Marysville, Yuba county, at a cost of approximately \$400,000, it is announced that a second theater is to be erected. The Golden State Theater Corporation of California has announced that a quarter million dollar playhouse will be erected.

Announcement is made in Marysville Yuba county, by the Pacific Telephone and Telegraph company that \$250,000 will be spent in extensions and improvements in the territory between Nicolaus and Chico, with Marysville as the working center. This sum is in addition to \$50,000 now being spent in the city limits of Marysville on improvements.

The so-called mountain counties' water conservation bill which was introduced before the 1925 legislature by Assemblyman H. E. Dillinger of Placerville and which Governor Richardson pocket vetoed, is coming up again at the 1927 session with stronger support behind it than ever. Such is the gist of reports from El Dorado county where sentiment appears to be outstanding strong for the measure and the county board of supervisors has passed a formal resolution calling upon the legislature to pass a bill adequately protecting the water supply of the mountain counties.

Community Building

To Be Prosperous, Town Must Have Attraction

Go into two different towns, one in which the houses and front yards, the curbing and paving of the streets, the sidewalks, and the like, appear dilapidated and unkempt, and then into a bright, active and progressive town where the houses are beautifully designed, the streets are paved, with rows of trees and parkways, and you will feel the difference between depression and discouragement on the one hand and elation and prosperity on the other. You would waste no time, it is certain, in deciding on which community you would choose as a place of business or residence.

But aside from the use which beautiful face brick offers in the wall surface of the house, it has many other uses in which it adds very much to the attractiveness of the surroundings. For instance, the garden wall, steps or terrace can be very beautifully laid out in brick. There is a possible harmony between vegetation and the beautiful colors of this material. Then there are interior uses which are very appropriate and decorative, as well as lasting.

The entrance hallway can be laid up in brick, making a very attractive, decorative effect. The kitchen may be finished in salt glaze or enamel brick, which would be very permanent, sanitary and economical. Of course, nothing could be more appropriate than a beautiful brick fireplace or two, one in the living room downstairs, let us say, and one in the bedroom upstairs—always an attractive feature in the room if properly constructed and always useful and cheerful, especially in the early spring and late fall. Better Homes and Gardens.

Established Fact That Beauty Pays Dividends

A picturesque hotel in a little town would be a boon, instead of the usual box-like structure, but you may guess that a picturesque hotel would cost \$85,000 more than the box-like structure. Why is beauty so expensive; and why does ugliness save money—if it does?

That query is inserted advisedly, says F. H. Collier, writing in the St. Louis Globe-Democrat. What if the picturesque hotel attracted wide attention; and the attention attracted passing guests trotting through, who spread its fame among others, and presently the hotel required a new wing for their accommodation, and then another wing?

And if its location fortunately was a happy one among trees, where it added to its charms, a fountain and an old English garden and a swimming pool, presently the picturesque hotel would blossom out as a "resort." Of course, its chief as well as its manager must be a person of good taste and resource. In the end, properly managed, beauty pays.

Early Zoning Ordinance

Springfield, Mass., claims to have one of the oldest zoning ordinances in the United States, perhaps in the world. At a town meeting held in February, 1649, more than 250 years ago, the citizens of the town ordered that no barns should be set up in a certain highway, and that, if anyone transgressed this order, it would be permissible for the selectmen to order the building torn down.

Fifty years later the selectmen laid out several highways of almost unprecedented width, some of 20 rods' width, or 330 feet; some of 10 rods' width, or 165 feet; and others 6 rods wide.

Playground Tests

One hundred and seventy-eight cities have entered 311 playgrounds and athletic fields in the national playground beautification contest announced by the Playground and Recreation Association of America. Forty-one states and Canada are represented by the cities competing for the \$4,050 in cash prizes and nursery stock to be awarded by the Harmon foundation.

New York is the most populous competitor, and Antwerp and Coward, S. C., are the smallest, each boasting 100 persons. However, the metropolis will not compete directly against the villages, as all entering cities are divided into three population groups.

Factory Improvements

The modern American factory is far different from the dingy brick structures that one still sees in parts of Europe. It seems to be built chiefly of glass; its ventilation is scrupulously regulated; its floors and walls are swept and washed, and every precaution is taken against dust which might play havoc with machinery and delicate tools, as well as with the health of the employees. We are practically forcing such factories on Europe, because Europe is learning that she cannot compete with us successfully unless she adopts our methods.

Recreation Grounds

The Playground and Recreation Association of America has had 19 years of successful experience in promoting public recreation. When its work began, 41 cities reported organized public play, but now there are 711.

Crystal Set Circuit. Adjustment of Detector is Fixed by the Manufacturers and Remains Permanent.

By WILMER S. TRINKLE

In Philadelphia Public Ledger.

One of the greatest drawbacks in the average crystal receiver is the lack of selectivity. To separate successfully broadcasting stations when several local stations are on the air is an absolute necessity if good uniform reception is to be obtained.

The set here described is one designed to meet the above requirements. The selectivity is quite good and testing this set in the heart of the city the writer was able easily to separate the Philadelphia stations and also to receive programs from WJZ, when that station was broadcasting through 2XAR, its 50-kilowatt station at Bound Brook.

The detector circuit here shown will be familiar to the old operators who regarded it as one of the most reliable in a fixed type and is shown in the circuit diagram. It may be used in the usual type of circuit, which does not require a battery, but detector sensitivity is materially increased by the use of an applied voltage that can be regulated to a fine degree. This is regulated in the set here described by a potentiometer.

The adjustment of this detector is fixed by the manufacturers and remains permanent. The crystal here used is of the carbundum type and the contact pressure is quite heavy.

The Parts Needed.

The parts used to construct the set here described are as follows:

- One fixed carbundum detector.
- One aero-coil coupler.
- One variable condenser .00035 mfd. capacity.
- One fixed condenser .001 mfd. capacity.
- One potentiometer, 200 ohms.
- One single-circuit jack.
- Four engraved binding posts marked as follows:

Ant., Gnd., A—, A+.

One panel, 7 by 10 inches.

One wooden sub-base, 7 by 8 inches.

One 4-inch dial.

Two lengths of No. 14 bus wire.

One dry-cell, one and a half volts.

The coupler used is of the single-layer solenoid type of the air-core variety and consists of two windings. The outside coil is the secondary, is three inches in diameter and consists of 61 turns of No. 22 double cotton-covered wire. The primary is wound inside of the secondary and near one end. It consists of seven turns of the

same size wire as the secondary and is spaced wound. This coupler covers the broadcast wave-length band when tuned with a .00035 condenser.

The condenser used is of the new straight-line frequency type and has a maximum capacity of .00035 mfd. It is quite compact and requires but little more room than the old-fashioned, straight-line capacity type. The use of this condenser in conjunction with the specified coil gives uniform frequency spacing on tuning dial.

The crystal detector used is a fixed carbundum and is completely sealed in. The user does not need to make any adjustments at all. One terminal is marked A and the other G. These figures are indicated in the circuit diagram, and the detector hooked up in that fashion. However, try the detector both in the position shown and also reversed to ascertain which way it works the better in your own particular set. The voltage of the battery used in this particular detector circuit is varied by the use of the potentiometer so that the best operating point may be found.

Laying Out the Panel.

The laying out of the panel is quite simple, and the drilling is cut-down to a minimum. Starting from the left of the panel, measure in three inches and up three and one-half inches to locate the center of the condenser.

The potentiometer is mounted two and one-half inches from the right hand edge of the panel and is on a line with the center of the condenser. The phone jack is mounted four and one-quarter inches from the right-hand edge and one inch and a half up from the bottom. By studying carefully the rear view of this receiver, the other instruments can very readily be mounted in their respective positions.

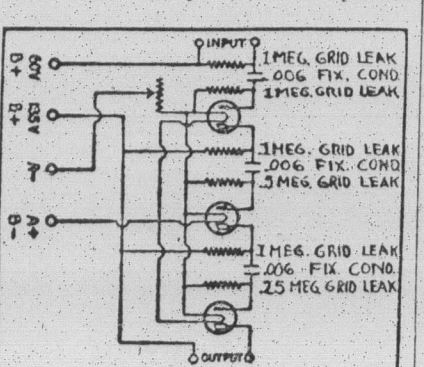

Wiring the set may then be begun, and by carefully following the circuit diagram, no trouble should be experienced.

After the entire set has been assembled and wired, the antenna and ground should be connected to their respective posts, and a one and one-half volt dry cell connected to the A posts. By manipulating the tuning dial and potentiometer adjustment, it should now be possible to tune in broadcasts. It is then time to try reversing the polarity of the dry cell and also of the crystal detector. After the best combination is found, do not change it.

Best Amplifier for Reducing Distortion

No doubt there are a number who have one-tube sets with which they would be quite satisfied if they gave more volume. Adding amplification will accomplish this object.

The resistance coupled amplifier is one of the best amplifiers for distortionless reception. It is a very easy amplifier to build, costs less than any other form of amplifier, takes up little

Resistance Coupled Amplifier Best for Distortionless Reception.

room, and compared with other amplifiers, draws less current from the "B" batteries.

On the other hand, it has some disadvantages. It requires three tubes to give about the same results as are secured with two tubes in a transformer coupled amplifier. Another disadvantage of this amplifier is that it takes more "B" battery voltage, up to 135 volts, as against 90 volts required for other types.

As you can see by the circuit diagram shown, it consists principally of a series of resistances. The condensers used vary from .006 to .05. The best capacity will be found only by experiment. However, in most cases .006 is correct. If you are using dry cell tubes, you will have to vary the resistors which make up the secondary until you find those that give the best results.

Slow Charge Is Best for Your Radio Battery

Storage batteries are charged by sending a direct electric current through them in the opposite direction to the current flow on discharge.

For the usual six-volt battery, the charging current ordinarily used will be from two to five amperes.

In order to obtain such a rate of current flow various types of battery chargers are used.

These convert the source of supply to which they are connected into direct current, if the source is alternating current, and reduce the voltage to the proper value for charging the battery at the current rate it requires.

Cells should not be overcharged, because of the danger of buckling the plates, due to surface expansion.

If the plates become sufficiently buckled, internal short circuit may be caused, resulting in bad sulphation. Overcharge, however, is not nearly so liable to damage the battery as over-discharge.

How to Tell Values of Different Grid Leaks

A suitable set of values for a grid leak would be one megohm, two megohms, three megohms, five megohms and seven megohms. A means may be provided for bringing these values in action which may be secured by wiring a tap switch so that it may be used to switch any one of a number of grid leaks into the circuit. This will provide a definite, positive value of grid resistance to suit the requirements of various groups of stations, according to their distance and power.

How Condenser Operates

The fixed condenser in the grid circuit of a resistance coupled audio-amplifier is an important part of the apparatus, as it allows the radio frequency current on the plate of the previous tube to reach the grid of the next, but prevents the D. C. plate battery voltage from reaching the grid.

MOTHER OF SEVEN CHILDREN

Helped in Caring for them by Taking Lydia E. Pinkham's Vegetable Compound

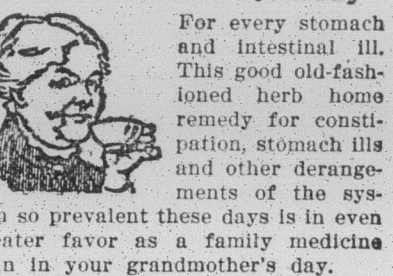

Glasgow, Ky.—"I am the mother of seven children, the eldest being only 12 years, and I feel that Lydia E. Pinkham's Vegetable Compound has helped to pull me through the roughest places of my married life. At one time I was so downhearted that life was a misery. A friend in Indianapolis, Indiana, told me of the Vegetable Compound, and after taking a few bottles of it I became myself again and it was a pleasure to do my housework and gardening. Since then I always use your medicine when I feel weak from overwork and it straightens me out."

—Mrs. MELISSA BARBERS, Route 2, care of O. F. Steenbergen, Glasgow, Ky.

New Orleans, La.—"I could not do a thing after my first boy was born. I was so weak, I had no appetite, lost weight, and was not able to do my work. I was this way for seven weeks, then I took Lydia E. Pinkham's Vegetable Compound and got wonderful results from it."

—Mrs. C. FAURE, 4014 Dauphine St., New Orleans, La.

Lydia E. Pinkham's Vegetable Compound has been growing in popularity among women for over fifty years.

Keep a sheep and you won't have to keep a lawn mower.

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 25 years. Say "Bayer" when you buy Aspirin. Imitations may prove dangerous.—Adv.

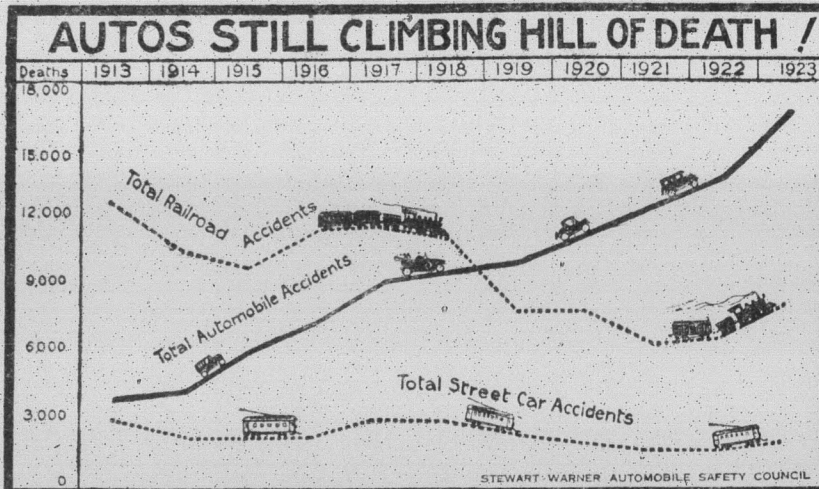

A plowman on his legs is higher than a gentleman on his knees.—Franklin.

Out of a Job

Auto Tragedies Increase as Other Travel Is Made Safer

WHILE railroad tragedies and street car accidents in the United States have gradually been diminishing in the last ten years, the annual toll exacted by automobile casualties is steadily mounting, says the Stewart-Warner Safety Council for the prevention of automobile accidents. Railroad accidents have been cut more than one-third, or from 12,520 in 1913 to 8,075 in 1923, the latest government figures available. Street car fatalities also have been cut down one-third or from 3,080 in 1913 to 2,006 ten years later. Automobile deaths, on the other hand, have increased over five-fold. Against the 3,822 deaths in 1913 we have 16,452 in 1923, and the score is growing each year.

Care, more care and still more care, is the solution of this national problem. The pedestrian must be always on the alert and as spry as a kangaroo, if he is to keep out of harm's way, and the driver for his part must never relax his vigilance for a moment when human lives are at his mercy.

Thomas O. Marvin

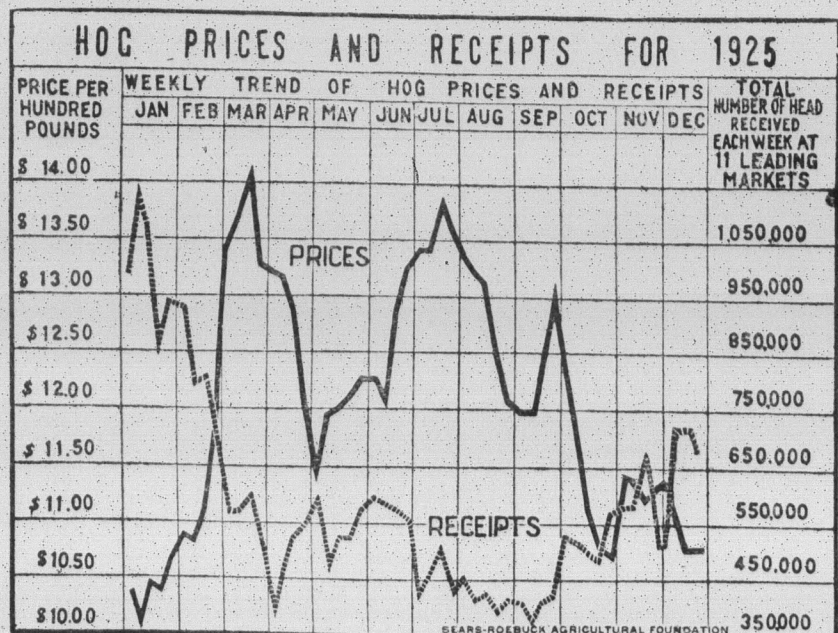

Thomas O. Marvin, chairman of the United States tariff commission, which is to be investigated by a special senate committee.

MISS ODETTE MENOS

Miss Odette Menos, typical beauty of Porto Rico, who is in the national capital visiting her uncle, Hannibal Price, the minister from this Isle.

HOG prices in 1925, according to a market analysis by the Sears-Roebuck Agricultural Foundation, have been the highest since 1920 and the number of hogs slaughtered nearly 20 per cent less than in 1924 and 1923, when production was at a record level. With prices approximately 50 per cent higher this year than last year, hog producers have had an especially profitable season. The range of prices has run from \$10 to almost \$14.50 per hundred pounds, the peaks being reached in March, July and September. The ratio between prices of hogs and corn prices turned favorably for the feeder last spring and is now the best that it has been since 1922. Last spring's pig crop in the corn belt, which is now coming on the market, was estimated to be 10.6 per cent less than the pig crop of the spring of 1924. This indicates that rather high prices are likely to be maintained during most of the 1926 season, unless a very large crop of hogs is produced and pushed rapidly into the markets. Excepting the months of January and February, receipts at the eleven leading markets of the country have gone below the 675,000 level and from June to October have been below the 550,000 mark.

CHURCHES

Go to Church on Easter Sunday.

CHRISTIAN SCIENCE SOCIETY
1965 Abbott Street, Ocean Beach

Services are held as follows:
Sunday morning at 11 o'clock.
Sunday School, 9:45 a. m.
Wednesday evening at 8 o'clock.

FIRST BAPTIST CHURCH OF OCEAN BEACH
DeFoe Street at Santa Monica Ave

Rev. W. S. Dunn, Pastor

Bible School at 9:45 a. m.
Morning hour of worship, 11 o'clock. Sermon by the pastor, "Reasons for the Resurrection." Reception of members. Communion. Anthem, "The Morn of Victory." Solo, "Resurrection," Mrs. Roy Close.
Young people's meeting 6:45 p. m. The Bible school will present a program of music and exercises. Anthem by the choir.
You are cordially invited to meet with us in these Easter services.

EASTER PAGEANT

Baptist Church, 7:30 p. m.
Processional—Choir.
Invocation—Rev. W. S. Dunn.
Greetings—Charles Owen.
"Song of the Lilies"—Primary department.
Reading—"In the Garden"—Cora Jane Williams.
Duet—"O Story Sweet"—Mary Jane Beeler, Hattie Shepherd.
Exercise—"The Daffodils"—By six girls from the Junior department.
Song—"Springtime"—Junior choir.
Pageant—"Feast of Light."
Song—"Praise Him."

SACRED HEART CATHOLIC CHURCH
Cor. DeFoe St. and Saratoga Ave.
Rev. P. C. Santy, Pastor

Ocean Beach—Sundays, Mass at 8:30 a. m. Sunday school at 9:30. Rosary and Benediction of the Blessed Sacrament at 7:30 p. m. Week-day Mass at 8:00 a. m.
Roseville—Sundays, Mass at 10. Sunday school at 10:30. Mass at 8 every first Saturday of the month.

UNION CONGREGATIONAL CHURCH
(Corner DeFoe Street and Santa Monica Avenue)

Sunday School at 9:45 a. m.
Sunday morning at 11 o'clock Rev. William I. Newman will preach. Subject, "The Living Christ." Special music. Solo by Mr. Walter K. Roberts.
Sunday evening service at 7:30. Sermon by the pastor, "The Master's Power."

NEW TRINITY CHAPEL
Rev. Geo. Wallace, D.D., in charge.
Holy Communion, 8 a. m.
Morning prayer and sermon, 11.

FIFTY YEARS OF HELLO!

The first transcontinental tele-
phone line was established from New
York to San Francisco only eleven
years ago, by way of Chicago and
Denver.

A second transcontinental line has
recently been completed from Los
Angeles through Texas to New Or-
leans, with lateral lines connecting
at San Francisco with the first con-
tinental line.

To think that the telephone was
unknown until but fifty years ago is
almost inconceivable. Its phenom-
enal growth has been due to its prac-
tical usefulness and the fact that its
officials have always been men of
highest ability.

STANDARDIZING RADIO

Radio, once regarded as an agency
for the amusement or diversion of a
comparatively few, is rapidly gaining
recognition as a utility affecting the
lives of the general public, and ob-
servers predict an even greater
movement in this direction.

Stabilization of the industry has
made great progress, and the public
is no longer delaying purchase of re-
ceiving sets because of a feeling that
they are likely to be changed rapidly
and improved.

DIPPING INTO SCIENCE

The Pawnbroker's Sign

The three golden balls symbol-
izing the pawnbroker's sign are
said to be traceable to the coat
of arms of the first Italian fam-
ily which made a regular busi-
ness of lending money. This
was the Medici family, famous
as bankers and art patrons.

Go To Church Easter Sunday

GROCE FABER'S HORSE

EXCITES BUSINESS DISTRICT

UPON FALLING INTO WELL

Last Tuesday forenoon nearly the entire population of the Ocean Beach business district focussed attention upon helping a horse out of a hole. The animal is a pensioner by the name of "Pat" and belongs to G. H. Faber, the leading grocer of the beach district.

While rambling down the alley between Newport and Santa Monica avenues, "Pat" had the misfortune of crashing through the wooden covering of an abandoned well, located in the rear of a lot adjoining the paved alley. He slid on his haunches several feet down the hole, and the more he pined to extricate himself, the deeper he sank, until only his head and neck were above ground.

Word of "Pat's" predicament went the rounds like a house afire, and dozens of good Samaritans rushed to the rescue of the unfortunate animal. Willing hands dug a runway, a rope was secured and the imprisoned "Pat" was hauled from the hole, none the worse for his mishap. He gave himself a hearty shake, got a pat or two from admiring bystanders, and serenely wended his way homeward.

SPECIAL EASTER PRIZES AT M. B. ROLLER RINK

Tonight and tomorrow afternoon and evening (Easter Sunday) prizes of fancy candy Easter eggs in dainty baskets and cute containers will be distributed by Manager Ed A. Kickham to his skating rink patrons.

Your visit to Los Angeles is not complete unless you stop at Snel's Holland-Dutch Bakery, 7115 South San Pedro street, near Florence street.

PICTURE AND SKETCH OF "SOONER STATE" EDITOR

Under date of March 6, on the title page of the "Sooner State Press," an exceptionally creditable weekly published by the School of Journalism at the University of Oklahoma, there appears a very striking likeness of J. J. Burke, accompanied with an interesting sketch of his newspaper career in that state, under the heading of "Early Day Editors of Oklahoma." Mr. Burke removed here from the "Sooner State" upon his retirement from newspaper work, and now resides with his family on Narragansett avenue.

DELTA EPSILON CHAPTER HONORED AT DINNER

Twenty-five members of the Delta Epsilon chapter of Delta Sigma spent an enjoyable evening recently at the home of Gerald Harris in Mission Beach. After dinner, Harry Fuqua entertained with a clever monologue, assisted by Harold Hanna, while two prominent wrestlers, Messrs. Lovett and Travers, also gave a pleasing exhibition.

GUESTS FROM LOS ANGELES

Mr. and Mrs. James S. Harshman, of Country Club drive, Los Angeles, visited with John J. Fitzpatrick on Santa Monica avenue during the week.

EXPECTED FROM ABROAD

Mrs. J. S. Parmalee, who has been making a tour of the world, is expected to arrive home during the coming week.

GONE TO HOT SPRINGS

Mr. and Mrs. P. W. Harbert of Newport avenue, have sold their restaurant and are taking a vacation at Warner's Hot Springs.

OFF FOR FLORIDA

Mr. and Mrs. B. Drumm, formerly of Ocean Beach and lately residing in San Diego, left last Monday for Miami Beach, Florida.

DENTIST W. F. BUSH

BUYS RESIDENCE AND WILL

OPEN BEACH OFFICE

Dr. W. F. Bush and his wife, former residents of Springfield, Ill., and more recently of Los Angeles, have purchased the home of Mr. and Mrs. E. E. Cressell at 4886 West Point Loma boulevard. Dr. Bush is perfecting plans for the opening of dental parlors on Newport avenue at an early date, full particulars of which will be duly announced in his professional card in these columns. The staff of "The Beach News" extends a hearty welcome to Dr. and Mrs. Bush while wishing them much happiness and prosperity in the beach districts.

Greeting Cards—Froide—Bacon St

BAPTISMAL SERVICE

THIS SUNDAY NIGHT

Rev. W. S. Dunn, pastor of the Ocean Beach Baptist church, states that baptismal services will be held next Sunday night, April 4, when two children will be baptized, and at the morning service six persons will be taken into the fellowship of that church.

REV. DR. GEORGE WALLACE TO MAKE WORLD TOUR

About April 15, Rev. Dr. George Wallace, rector of the Trinity chapel on DeFoe street, will leave Ocean Beach for a trip around the world. He will travel across country to New York and from there to London, afterward going by way of European countries to Japan and China, before returning to the United States.

NAVY OFFICER RETURNS

Mr. Robert J. Sterling, chief quartermaster of the U. S. S. Wood, and residing with his family at 4857 Saratoga avenue, returned with the fleet last Thursday morning.

ARRIVES FROM NEW YORK

Mrs. H. W. Cooper, recently arrived from New York on a visit to her son and daughter-in-law, Mr. and Mrs. Bert Cooper, of 2078 Cable street. A happy and healthy junior Cooper, born March 17, also cooed a welcome to his delighted grandmother.

VISITORS FROM LOS ANGELES

Mr. and Mrs. R. R. Davis and their two young sons, Allen and Oliver, were beach visitors this week, and made their headquarters at the residence of Mr. and Mrs. O. F. Davis on Cable street. The latter are still enjoying a vacation in Los Angeles.

VISITING GRANDPARENTS

Miss Betty Lodge, of Los Angeles, is spending her Easter vacation in Ocean Beach at the home of her grandparents, Mr. and Mrs. J. P. Van Houten, of 4817 Saratoga avenue.

JOLLY "BUNCO" PARTY

A delightful "bunco" party was given last Saturday evening by Mrs. Lillian M. Howe of 4964 Brighton avenue, assisted by Mrs. Katherine Campbell. Three prizes were given to the ladies and three to the gentlemen. Delicious refreshments were served to about thirty guests present.

RETURN FROM NORTHERN TRIP

Mr. and Mrs. W. B. Page of 2291 Soto street, returned last Saturday from a three weeks' trip to San Francisco, where they visited Mrs. "Nick" Williams, sister of Mrs. Page.

MOVED TO SAN DIEGO

Mr. and Mrs. Earl J. Haas and son, of 4730 Muir avenue, moved last Thursday to East San Diego. Mr. Haas recently opened a pool hall at Thirty-third street and Adams avenue.

Subscribe for "The Beach News."

ROSS-MCCAIN WEDDING

PRETTY HOME SERVICE

The wedding of Miss Louise McCain to Maurice B. Ross, son of Mr. and Mrs. Pete W. Ross of this city, was solemnized at 10:30 o'clock last Monday morning at the Ross home, 3968 Park boulevard. Rev. Frank Linder of the First Methodist Episcopal church, officiating in the presence of the immediate families. The bride was attired in a frock of white georgette, trimmed in lace, and carried a bride's shower of orange blossoms and lilies of the valley. Mrs. Charles R. MacMillan of San Francisco, sister of the bride, was her only attendant. Mr. Ross was attended by his brother, Leonard Ross of Pasadena, as best man. Following a honeymoon trip to the north, Mr. and Mrs. Ross will be at home to their friends at 4653 Campus avenue.

Charm of Needlecraft in Simple Tub Frocks

All the signposts of fashion point in the direction of tub frocks for summer, made of various washable materials and for many different uses. Since freshness is a perennial charm in summer clothes, the designers of sports and afternoon frocks have centered attention on materials that can be laundered. The new rayon fabrics are in demand for sports dresses, but voile and other sheer fabrics maintain their popularity for afternoon wear. They are usually made in soft pastel colors and adorned with needlework which gives them a touch of elegance.

Personal Attention To Every Customer

California's Pioneers

If California's pioneers—those sturdy individuals who braved the hardships of the covered wagon days—could once more travel the trails they had blazed in '49, they would wonder at the remarkable achievements science has crowded into the span of years since they first journeyed to the Pacific.

They would view with satisfaction the amazing agricultural development of the West; they would marvel at the great cities that have risen on spots which only a few years before had been covered with cactus and sage brush, and when they had completed their journey they would unselfishly award part of the credit for this transformation to California's electrical pioneers—those men who invested their money and skill in an unknown field.

As in the past, the power company, backed by its customer-shareholders and efficient management, will continue to pave the way for future progress and development, forever striving to more widely extend dependable, economical electric service controlled by the simple push of a button.

Our commercial department will gladly assist you in solving your electrical problems—power or heat—and this service is without charge.

SCHOOL DAYS

WHO SAID

"Self-conquest is the greatest of victories."

It is worth remembering that Plato, the great Greek philosopher who formulated the thought here expressed, was the originator of the idea of study which leads the pupil to seek truth and learning rather than the plain which calls for dogmas from the teacher.

Plato was the disciple of Socrates and the instructor of Aristotle. He took the truths of Socrates and shaped them in his own massive intellect and handed them on to Aristotle who made his contribution to the knowledge of the world by amplifying those truths. Of the life of Plato little is known except that he was apparently of good extraction and endowed with a sufficient inheritance to enable him to live his life of a teacher without asking any recompense of his students. In addition to demanding no fee for the instruction he rendered it was Plato's idea that no work should be given to his students in written form. This made it too dogmatic, he reasoned, and made the pupil feel that it must be accepted, instead of merely whetting the student's curiosity and impelling him to seek further.

Plato was about twenty years of age when he came under the direct supervision of Socrates and from that time until the death of the latter he was his favorite pupil. Following the death of the great philosopher Plato is thought to have left Athens with a view to improving his mind through travel. Following this he returned to Athens where he opened his school in a gymnasium known as the Academy and there he taught for the remainder of his life. He died B. C. 347 at the age of eighty-two.—Wayne D. McMurray.

How It Started

By JEAN NEWTON

"GAG RULE"

NOT only in our national and state legislatures do we hear this term resolutely used, but in clubs and gatherings of all kinds where parliamentary proceeding is observed. In a high school recently, the action that had been opposed to certain action that was taken complained of being silenced by "gag rule."

The expression signifies any parliamentary ruling which silences or prevents agitation or opposition along certain lines. With us it is a relic of a historic parliamentary struggle of our young congress in pre-Civil-war days over the question of abolition.

After the beginning of the agitation of northern abolitionists against slavery about 1831, petitions began to pour into both houses of congress asking for the abolition or the restriction of slavery in the states. In May, 1835, the house, under pressure of the slave states, of course, passed the so-called Plinkney resolutions which provided that no petitions relating to slavery should be printed or referred. In fact that they should be disregarded! This was the first of the "gag rules," which were in disregard of the first amendment of the Constitution referring to the right of petition.

Subsequently came the Patton resolutions and the Atherton gag with similar discrimination against petitions regarding slavery, and finally the famous "Twenty-First Rule." At the opening of each new congress, however, John Quincy Adams, the champion of the right of petition, fought this "gag," and in December, 1844, succeeded in having it rescinded. The term, however, has survived in modern speech.

As a possible solution of its transportation problem Paris has been experimenting with six-wheeled motor buses of large capacity.

Mother's Cook Book

A tiny house, a plot of earth; And thou, and I ah, these make home! Speak not of poverty nor dearth—A tiny house, a plot of earth Are ample cause for thanks and mirth. For bliss we need not further roam. A tiny house, a plot of earth; And thou, and I ah, these make home! —Blanche B. Wade

SEASONABLE DISHES

ALTHOUGH clear soups, which are largely water, contain little nourishment, they are of value because they stimulate the juices of the stomach. Appetizing soups may be made of materials otherwise wasted. Good soup is not necessarily made from soup stock; vegetables of various kinds as peas, beans, asparagus, cooked until soft then put through a puree sieve, heated with milk and bound with butter and flour cooked together, using stock sometimes if at hand, will make many kinds of soups.

Split Pea Soup.

Take one pint of split peas, four quarts of water, one large onion minced fine, four tablespoonfuls of butter, three tablespoonfuls of flour, one teaspoonful of minced celery, or a few dried leaves, one-half teaspoonful of paprika, and two teaspoonfuls of salt. Wash the peas and soak them overnight in cold water. In the morning pour off the water and put them into soup kettle with three quarts of water. Place over the fire and bring to the boiling point. Pour off this water, let the peas simmer for four hours. Add the celery the last hour of cooking. Cook the onion in the butter, add to the peas with the flour and cook until smooth and well blended. Rub all through a sieve and season and serve.

Scotch Broth.

Take three pounds of mutton, two tablespoonfuls of pearl barley, two tablespoonfuls each of minced onion, turnip, carrot, celery and salt, one tablespoonful of minced parsley and three quarts of cold water. Remove the bones and the fat, cut the meat into small pieces and put into a kettle with the water, chopped vegetables, barley and seasonings, except the parsley. Simmer for three hours, add the parsley and serve.

Little Miss April

By DOUGLAS MALLOCH

SHE speaks with a frown, but she comes with a kiss. And kisses your teardrops away. I call her Miss April, the dear little miss. Though really her title is May. Now, May is a month of continual flowers. But April's a season of sunshine and showers. Had I named the maiden, I'm certain it's so. Then I would have called her Miss April, I know.

She thinks that the world is a terrible place. A moment, a moment or two. A moment a cloud will pass over her face— And then how the sun will come through! She tells you the world is a terrible spot. And proves right away that it really is not. Though now for a moment the lady is vexed. Lord bless me—the sun may be shining the next!

O Little Miss April, they laugh at your pranks. They smile at your sigh and your song. But Little Miss April, I give you my thanks— You sorrow, but never for long. And I, when the cloud may envelop my way. May I see the sunshine, behold the new day. When dark is the mountain, when stormy the sea, May I have the soul of the spring-time in me! (© by McClure Newspaper Syndicate.)

Among the NOTABLES

NATHAN ROTHSCCHILD

THE Rothschilds of Europe have the reputation of being the greatest financial geniuses. Indeed, their ability to amass wealth has made them world famous. And Nathan Meyer Rothschild was the master money-maker of them all.

Grandson of a small merchant, one of ten children, Nathan was born September 16, 1777. He was sent to England to take charge of the vast Rothschild business there, the other four brothers being scattered in other important European countries. Nathan took up his residence in London. The boldness and skill of his financial methods roused first the distrust then the admiration of his business friends. He employed carrier pigeons and special fast boats to get news which would affect his trading on the stock market. He loaned money to carry on the war against Napoleon, and always believed in Napoleon's eventual defeat. He is said to have been present at Waterloo. However, he did have some representative there, at least, and arranged for relays of fast horses; for he got the news of Napoleon's defeat some hours before anyone else. Consequently he could buy heavily in the stock market—at that time depressed by the news of Blucher's defeat. He risked all his fortune on that chance, and made, nobody knows how much, money out of it.

He, himself, and other members of the Rothschild house, had loaned millions to the governments of their various countries. Indeed, the war of the allied countries against Napoleon, was practically financed by them. Nathan died in 1836.

AN ABBREVIATED STORY

IT

MR. AND MRS. EMTIE AIR, who hadn't seen young Blugg and his wife since they left for the Menigitis islands on their honeymoon, descended on them voraciously.

"Oh, the Bluggs!" cried Mr. Air. "And to think that we should meet them wheeling the baby. Isn't that just too perfect! Do let me take the little coverlet away from its little face and get a little look at the little dear! Blugg, you lucky devil, it's the living image of you! The same Roman chin! The same Mexican ears!"

"Nonsense!" snorted Mrs. Air. "I favor Mrs. Blugg. Why, the resemblance is startling, amazing! It has Mrs. Blugg's Grecian mouth, her Asiatic dimples, her Peruvian nose! Positively, my dear, the likeness is uncanny!"

And they argued it out so excitedly, so vehemently, that a crowd gathered and took sides and the fire engines came, and finally the exasperated young Blugg had to raise his voice to a frenzied pitch to set the matter straight.

"Conblame it!" he roared. "This ain't our baby! We ain't got no baby! This is just one we're wheeling!"

U. S. LOST SIXTY-FOUR DOLLARS

By CHARLES FORT

(© by Short Story Pub. Co.)

SIMON BOBBLES had ways of his own, so you must not be astonished at anything done by him.

Said Simon: "Ain't I the strange feller, though! I'm that set on traveling! I'd like to be in Denver, just to say I was there. I'd like to go out to see Budd Lobe in San Francisco. I ain't got any use for Budd and he ain't any for me, but I'd like to go out just to say I was there. I'd like to go to Washington. Don't care about the capitol and wouldn't be bothered with the monument; don't care about generals and senators, but just want to say I was there."

Simon made a discovery. Said he: "It costs money to travel!" Simon was given to wisdom. Said he: "There's always ways of doing things." And this was his way: The postman hastened from corner to corner, collecting mail. And there on a letter-box sat Simon Bobbles, perched comfortably, swinging his legs.

"Hey, young fellow," said the indignant postman. "You mustn't do your lounging there! The government ain't in the furniture business. Do you hear?"—for Simon said nothing, but swung his legs idly. "You mustn't loaf there, so take a jump for yourself."

"But I can't," answered Simon. "I can't move, and by rights, I can't talk, either. I'm mail, I'm mail. See?"

"MR. BUDD LOBE, 234 Pearl Street, San Francisco, Cal."

Upon his forehead was a postage stamp. Upon his coat was marked in huge letters the above address.

"Don't talk nonsense," said the impatient postman. "And you'd better not interfere with the post office, either." He called to a policeman.

Now, Officer O'Glory was a new policeman, and as he had been in trouble several times because of arrests made too promptly, he was a careful officer. Not grasping the facts of the case, he approached, glancing at a little book of rules.

"I'm mail," said the untruffled Simon. "He can take me or leave me. I'm addressed and stamped and I don't care what he does about it."

"Stamped!" cried the wrathful postman. "Why, he weighs at least two hundred pounds. And for that, he's got one miserable two-cent stamp on him. Officer, are you going to take this fellow?"

Officer O'Glory fluttered the pages of his book of rules. Unfortunately, the compiler had neglected to foresee such a situation.

"When in doubt, use your own judgment." That was the only suggestion of application.

No; there was another: "Never permit yourself to be thought at a loss."

"I can't touch him, if he's mail," declared Officer O'Glory. "You don't get me before the commissioner for picking parcels off the tops of letter-boxes."

"But how far would a two-cent stamp carry him?" shouted the postman.

And Simon answered: "I ain't supposed to talk, 'cause I'm mail, but you know that so long as there's one stamp on anything, you've got to take it. Wasn't there any on me, I wouldn't go; but so long as there's two cents paid, you've got to take me for the rest to be paid at my destination."

"Well, I'll be registered!" cried the postman. "But Mr. Budd Lobe will be glad to see you! How are you mailing? You're first-class postage, I suppose?"

"I'm always first-class goods," answered Simon.

The postman calculated rapidly. "Two cents an ounce or fraction thereof. Sixteen to the pound—two hundred pounds—sixty-four dollars! But won't Mr. Budd Lobe be glad to see you! Come on, then."

"Carry me," said Simon. "I'm sort of a ward of the government and must travel luxurious. I'm mail, and can't walk."

And with many a gasp and many a groan, the postman staggered to the post office with Simon resting comfortably on his back.

"He's mail!" gasped the postman, falling into the office with his parcel. "He is!" said the postmaster. "Well, he don't go here. He's live stock, and Uncle Sam isn't carrying live stock. Turn him out!"

"That'll be all right," Simon agreed: "turn me out. I'm mail and ain't supposed to talk, but my sender'll sue you. There ain't a court in the land would uphold you. You just try to classify a human being as live stock and hear the kick that'll go up."

There's the Wimmen's clubs always something frenzied to find something to kick about. You let them hear you call them and other human beings live stock!"

"To— to California with him!" roared the postmaster. So there was nothing to do but to accept Simon and cancel his stamp. The indignant cancellation clerk dipped his fist into indelible ink and punched the stamp on Simon's forehead, while up and down his clothes "postage due" stamps were pasted.

Neatly done up in a sack all to himself, Simon traveled across the continent. He saw nothing of Philadelphia and nothing of Chicago.

"Don't want to," said Simon: just

want to say I been there. Must go to Washington, too. There's sights there. Don't want them; just want to say I been there." And, having a plentiful supply of tablets secured from a vegetarian, he subsisted as well as any vegetarian, secluded in the mail car until the brakeman cried: "San Francisco!" and another postmark was stamped on his forehead.

It was the early morning delivery. The postman went up a stoop, whistling and crying: "Lobe! Budd Lobe! Anyone know Lobe?"

Budd Lobe knew Lobe and he hastened down the stairs. "Sixty-four dollars due!" said the postman.

"Why, if it isn't Simon Bobbles!" cried Budd. "How are you, Simon? What on earth are you doing here? And what's that on your forehead? What kind of a stamp album are you wearing?"

Said the postman: "Sixty-four dollars, please!"

Then Budd Lobe understood. "What? For Simon Bobbles? He ain't worth it. Sorry, Simon, but you know you aren't worth anything like sixty-four dollars."

"I know it," Simon admitted, and mumbling something about being delighted to see him, Budd ran down the stoop, and rushed around the corner, flying from so much unpaid postage.

"Well, if this isn't a sell!" exclaimed the postman. "Now, what's to become of you?"

"Kind o' like to see Washington," drawled Simon. "Anyway, I've got it to say that I've been to 'Frisco."

And with the government at a loss of sixty-four dollars, he was forwarded to the dead letter office.

A clerk rudely tore off his coat. It was the "envelope" of the "dead letter." In a vest pocket was a card bearing the name and home address of Simon Bobbles.

They sent him home from the dead letter office.

Says Simon: "There's always ways of doing things. Been everywhere! Didn't see much places, but just the same can say I was there."

Police Officer Didn't Quite "Get" Situation

At one of the open-air summer concerts in New York the park band was playing a classic symphony in which the trumpet had one considerable solo part. This trumpet was supposed to come from a distance—"Heard off," and indoors the trumpeter was customarily somewhere off in the stage wings. On this occasion he had left the band stand to seek some favorable location. The music reached the point where the trumpet was supposed to take it up and there was a dead hush. No trumpet.

Then from a distant clump of bushes there floated through the darkness the first silvery notes of the trumpet solo. Suddenly they stopped short and there was another breathless hush. Then from another clump of bushes came a few more notes. Again silence.

The despairing band leader raised his baton to continue the symphony when a few more notes rang out from a nearer clump. Again they were cut off abruptly.

The temperamental leader was rapidly going mad, when from a still different place a considerable part of the solo came rather blurred and hurriedly but triumphant. It was cut off suddenly with a blatt and there was a scurry on the outskirts of the crowd. Through them charged the trumpeter screaming in two or three languages, none of them English. Behind him panted four fat policemen. The frantic musician hurried his trumpet passionately at the leader's feet and turned on his pursuers like a hunted animal.

"Vat ees?" demanded the orchestra leader of a perspiring sergeant.

"It's all right, chief," said the sergeant soothingly. "Go right on with your piece. We just want this gimmick here for distainbin' the peace. He was thyrin' to butt into y're party."—Everybody's Magazine.

No Diamond "Mines"

Diamonds are not found in any special locations. On the American continent, with the exception of Arkansas, the diamond has never been found in the actual matrix in which it was formed, but in gravels and earth which are the result of the breaking down of rock peridotite. This rock disintegrates very readily, cracks and alters into a greenish soapstone-like substance and then actually into a yellowish green powder. The mines located in South Africa, or volcanic pipes, as they really are, are like yellow snuff on the surface, then it gradually turns into a yellow rock, then into a bluish grain to a depth of 1,000 feet, then becomes a black rock going down to a depth of 3,500 feet. Diamonds are usually found in octahedron shapes or some modification of the same.

Famous Old University

Cambridge, one of the two famous English universities, is situated at Cambridge, 48 miles northeast of London. The early history of the university is traditional until the Twelfth century. Siebert, king of the East Angles, is said to have established a school at Cambridge about 630 A. D. The university received its first charter from Henry III. in 1231, was incorporated by Elizabeth in 1571, and sent two members to parliament in 1603, a privilege which it has enjoyed ever since. The university consists of 17 colleges and 4 halls, and has an average attendance of about 4,000 students. Newton, Bacon, and many of the greatest scholars and poets of England have come from the institution.—Kansas City Star

New health in Tanlac

"Two years ago I was frantic from loss of sleep, and tortured with nervousness. Tanlac has built me up from 120 lbs. to 187 lbs. I eat and sleep like a champion—never felt better." Mrs. R. O. Baird, Milwaukee, Wis.

This statement merely backs up what over one hundred thousand grateful users have said about Tanlac. Our files are packed with such testimony.

If your system is run down, if you can't seem to eat or sleep, have lost weight or suffer from trying pain, why not let Tanlac start you back to vigorous strength and health.

No long, wretched wait to get results! Tanlac starts right in to build you up. It cleans the blood, revitalizes digestive organs, fixes up the liver and makes you feel like a new person. For constipation take Tanlac Vegetable Pills.

Backache Wearing You Out?

Every day find you miserable with backache? Suffer sharp, stabbing pains? Feel lame and stiff—always tired, nervous and dispirited? Then look to your kidneys! Your kidneys are the blood filters. Perhaps they have failed to properly rid the blood of body poisons. Naturally, then, you suffer the injurious effects of this slow poisoning. Don't risk neglect! If your kidneys need help, use Doan's Pills. No other kidney diuretic is so well recommended nor so successful. Ask your neighbor!

A California Case

Mrs. A. E. McClellan, 517 W. Dryden St., Glendale, Calif., says: "My back was lame and when I stooped, sharp catches took me across my kidneys and it was difficult to get up or down. I always had that tired feeling. Dizziness, too, was another symptom. So I finally started using Doan's Pills. They completely relieved me."

DOAN'S PILLS 60c. STIMULANT DIURETIC TO THE KIDNEYS. Foster-Milburn Co., Mfg. Chem., Buffalo, N. Y.

"Albers stands for Better Breakfasts"

Albers Carnation Mush

A hot, nourishing cereal is the prime morning need of a growing child. This is why the wise mother always serves Albers Carnation Mush to His Highchair Highness. Whole wheat and delicious!

SPORT HATS ARE GAY IN COLOR; NEW FROCKS STRESS FEMININITY

TO BE sure, a hat may appear "oh, so simple," but is it? 'Tis true, at first glance, to the uninitiated, even the most sophisticated hand-worked hat may look the part of "sweet simplicity," but try to copy it. Are, there's the test! Study the design, count the stitches, then let the verdict be given. "Stitches" did we say? "Strokes of the brush," would be just as correctly spoken, for hand

It is time to buy a new frock for Easteride draws near. What shall its fabric be? Comes the answer straight from fashion's headquarters—choose some one of the durable yet sheer materials, for the thin silk weaves are going to be very stylish this season. In the darker colors they are thoroughly practical, and navy blue particularly gives promise of widespread vogue. The last word

Some Handsome Sport Hats.

painting this season has become a definite factor in the decorative scheme of fashion.

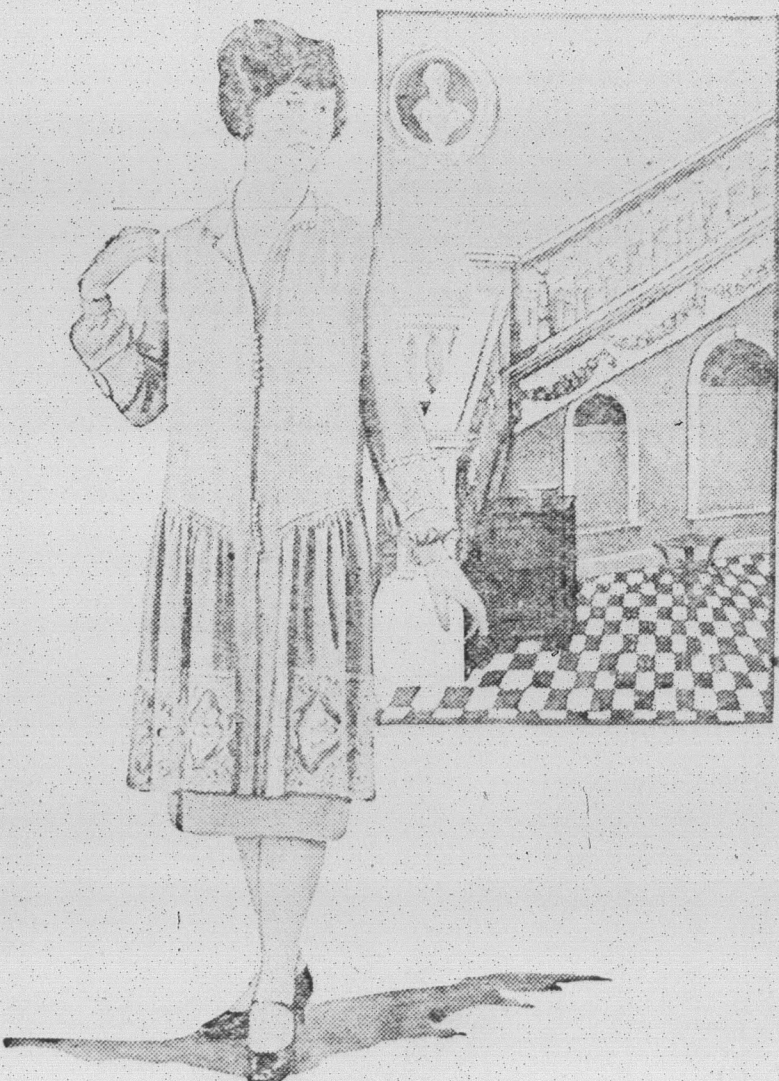

It is colorful handcraft imitability executed which gives distinction to the group of handsome sports hats here pictured. Straw and fabric, likewise hand painting and embroidery, play an intriguing part in the designing of the models in this collection of smartest spring styles.

A note of outstanding chic in the hat of green openwork straw shown first in the group is its imposing high crown with its gilded crease. Note, too, if you please, that its webrim turns up at the back, which, according to fashion's decree, is the proper thing for it to do this season. The embroidered flowers in purple and rose, with green faille silk edging the brim.

Something very new and extremely fashionable is crocheted straw. Of such is the outmoded sports-hat

from Paris, is for black georgette frocks for very smart occasion wear. These show little trimming except a lavish fluttering of draperies and set-on panels and multitudinous godets shirtings and ruffings. The extreme of the mode finds expression in georgette combined with tulle. Two outstanding favorites are navy georgette with matching tulle also gray.

If your preference is for other than a sheer transparent fabric, the mode recommends any of the handsome silk crepes, notably that crepe and crepe de chine. From force of habit, the woman of conservative taste will select a dark shade, but the trend of fashion is just as surely toward joyous springtime colorings. It will take real strength of mind to resist such alluring shades as the lovely new rose tones, artistic greens, blues, yellows, mauves, grays and many more as charming which may be summed up in one word—pastel.

Shows Trend of the Mode.

to the top at the right in the picture. The flowers are in multicolor, and hand woven into the background.

Hand painting glorifies the charming 'peanut straw sports hat pictured to the center left. The motif is of modernistic inspiration, expressing vivid yellows, greens and reds. There is a binding of silver ribbon with a tailored bow of same at the back. A touch of silver is one of the mode's pleasing whims for frock or hat.

Quilted millinery is a fashionable theme. The imported sports hat shown last in the group is of white faille silk, all-over quilted with gold metal thread, then embroidered in green, brown and orange.

Fabric, however, as exquisitely colorful and as finely textured as it is these days, is not the only expressive part of a charming springtime frock. So much depends upon the making. This season's modes abound in intriguing detail which bespeak the consummate art of the stylist. The frock in the picture is representative of the trend of the mode to create types which interpret a charmingly feminine spirit. One of the newest colors, verdigris green, is chosen for this dress of crepe Louise. The front shows gathered panels in apron effect, finished with deep band of cream lace. Apron drapes are very modish.

JULIA BOTTOMLEY.

USE THERMOMETER IN BAKING CAKE

Right Temperature Depends on Kind of Leavening.

(Prepared by the United States Department of Agriculture.)

More cakes are spoiled in the baking than even a hungry schoolboy ever dreamed of, says the bureau of home economics of the United States Department of Agriculture.

The heat of baking does five things to cake batter during baking. It speeds up the baking powder or other chemical used for leavening in forcing gas and so causes the cake to rise. It makes some of the liquid in the batter change to water vapor, which also aids in leavening. It hardens the proteins, particularly the gluten in the flour and the albumen of the egg so that after the cake rises it sets and remains light. It cooks the starch in the flour and takes away its unpleasant raw taste and browns the crust. The chief knack in baking then is to regulate the temperature so that the cake will set as soon as enough gas and water vapor have formed, but before they have time to escape or condense.

The right temperature depends on the kind of leavening, whether the batter is thick or thin, and on the

A Suitable Thermometer May Be Bought at Relatively Low Cost and Used in Any Type of Oven.

shape and size of the pan. The thick batter of fruit cake baked in a loaf, for instance, takes longer to heat through than the rather thin batter of cup cakes in small pans, and the fruit cake needs a lower temperature and longer baking.

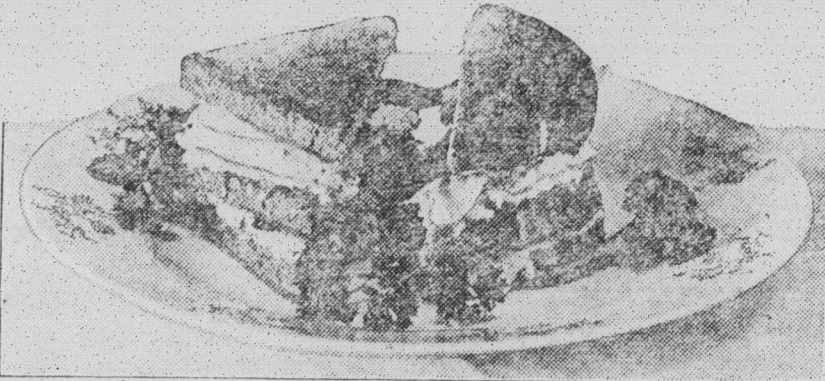

For most cakes, if the temperature is right at the start, it need not be changed during baking. A reliable oven thermometer or an automatic temperature regulator that has been tested is the surest means of knowing when the temperature is right. A suitable thermometer may be bought at relatively low cost and used in any type of oven.

The oven door should be opened only when necessary and the pan should be moved as little as possible while the batter is setting.

Cakes may generally be considered done when they shrink from the pan, but for safety they may be tested with a clean straw or toothpick.

When the pans are taken from the oven they should be turned upside down until the cake cools partially and becomes firmer. Cake is too soft and hot for handling when it first comes from the oven. It should be removed from the pan, however, before it reaches room temperature or has a chance to sweat.

CLUB SANDWICHES FOR LUNCH OR SUPPER

An Appetizing and Convenient Combination.

(Prepared by the United States Department of Agriculture.)

The "club" sandwich is one of the most deservedly popular items on the restaurant menu, but the housekeeper very rarely offers this appetizing and convenient combination at home. Containing, as it usually does, an assortment of food from several of the important food groups—meat, or an equivalent, vegetables such as lettuce, tomato, watercress, peppers, or other salad materials. In addition to the three slices of toast commonly completing its somewhat bulky structure—the club sandwich lacks only sweets, easily supplied in some other form, to be a well-proportioned meal in one dish. For lunch or supper it makes a very suitable main course.

The chief point about making and serving club sandwiches successfully is to have all the different ingredients assembled conveniently so that when the toast is ready the sandwiches can be put together without delay and served before the toast has a chance to cool appreciably. Experience has shown that it is best to cut the slices of toast in half before the filling is spread over them, rather than run the risk of crushing out the filling in cutting the sandwich later, spoiling its appearance. While it is customary to toast the bread, at least on one side, in making 'club sandwiches, this is not essential. When graham or whole-

wheat bread is used it may be preferred untoasted.

Three slices of bread or toast are used, providing two spaces to be filled. Both may have the same filling, or a different combination of flavors blending together well may be used in each part, but the whole must be a palatable combination. A typical club sandwich contains lettuce, dressed with mayonnaise, a slice of chicken, seasoned tomato, and ham or bacon. In place of the chicken the United States Department of Agriculture suggests that cottage cheese may be used to give a filling of excellent flavor. The other ingredients may be the same, or one may use instead of them, with cottage cheese, some of the following combinations: Lettuce, mayonnaise, sliced tart apple and nuts; sliced Spanish onion, pimiento, dressed lettuce; cucumber, lettuce, mayonnaise; watercress, mayonnaise, sliced orange. The use of mayonnaise results in a moist and tasty sandwich, especially when the bread has been toasted.

Sweet cottage cheese club sandwiches may be made without the lettuce and salad dressing, filled with layers of the cheese and marmalade, or cheese and stewed, mashed dried fruits, such as prunes, apricots, or figs, or raisins. Whole-wheat bread is particularly good in these sandwiches.

Considerable Quantity of Scrapple Often Made

On farms, when hogs are killed, it is frequently the custom to make use of the heads and sometimes the hearts, by combining them with corn meal to make scrapple. A considerable quantity is generally made up at once, and as the farm household is often large in number, and there are also storage facilities for foods not immediately used, this is the most convenient practice. For small families, and those living in cities, without good storage space, the amount of scrapple from even one hog would be more than could ordinarily be disposed of.

Those who enjoy the flavor of scrapple, however, may make it with lean pork, using pieces which include some bone to help "jelly" the loaf. They may thus have scrapple in any desired quantity. The United States Department of Agriculture gives the following proportions and directions for making it:

Scrapple.

2 pounds lean pork, part meat and part bone.
2 cupsful corn meal.
2 teaspoonfuls salt.
1 teaspoonful powdered sage.
Water.

Pigs feet may be used for part of the meat. Cook the pork in the water until the meat can be removed easily from the bone. Remove the meat, cool the broth, and remove the fat. Reduce the broth to about two quarts or add water enough to bring it up to this amount, and cook the corn meal in it. Add the meat finely chopped and the seasonings. Pack in enamelware bread tins or other suitable molds. Cut into slices and fry when cold and firm. Beef may be used in the same way.

Celery Is Particularly Crisp in Cold Weather

Celery is particularly crisp and good during cold weather, and as it is valued for its texture as well as its flavor, it is usually served uncooked. Chopped raw celery may be added to many dishes such as stews, hashes, creamed vegetables and salads, to improve their flavor, and the recipe below, which is from the United States Department of Agriculture, shows how it may be used to make a quickly prepared and very delicious soup.

Celery Soup.

2 cupsful finely cut butter
raw celery 2 tablespoonfuls
2 tablespoonfuls flour
chopped onion 1½ teaspoonfuls
2 teaspoonfuls salt
chopped green ¼ teaspoonful
pepper ¼ teaspoonful
1 quart milk 2 tablespoonfuls
½ cupful cream minced celery
4 tablespoonfuls leaves

Cook the onion, celery leaves and green pepper in butter for two minutes, stirring constantly. Add the salt, pepper and flour, cook for a few minutes, and then add the milk. Cook until thickened, then add celery and cream, and let stand for about one-half hour in a double boiler, but do not have the water in the under pan boiling, or else put the soup in a warm place, to bring out the flavor. Reheat and serve.

Cool Place for Milk.

As soon as possible after delivery, milk should be put in a cool, clean place and kept there until used. Exposure to the air of pantry, kitchen, or nursery is harmful. Unless it is in the bottle into which it was put in the dairy, the milk should be poured into a freshly scalded vessel and covered.

She Didn't Care

We had been going together for about six months. One Sunday afternoon in the fall we were out walking in a new addition of the city, where many young couples lived. As we passed one newly built house, I said: "There is one house that young married people won't live in, because it has no heating plant."

She immediately turned to me, and putting her hand on mine, said: "O, that wouldn't make any difference to me; I could get along with a stove."

We are now married, but do not live in the house that has caused all our happiness.—K. P., in Chicago Tribune.

Watch Cuticura Improve Your Skin.

On rising and retiring gently smear the face with Cuticura Ointment. Wash off Ointment in five minutes with Cuticura Soap and hot water. It is wonderful what Cuticura will do for poor complexions, dandruff, itching and red, rough hands.—Advertisement.

The First Cuckoo

A certain minister in a remote Highland district last year thought he would introduce an innovation into the Watch Night service, and brought into the church a cuckoo clock. It had not the effect he had expected, which was of solemnizing the occasion. As the cuckoo began to strike, the village lads at the back started to accompany it, and by the end of the twelfth sound pandemonium reigned, and the service had to be abruptly closed. The experiment will not be repeated this year.

For economy's sake, why not buy a vermifuge which expels Worms or Tapeworm with a single dose? Dr. Perry's "Dead Shot" does it. 372 Pearl St., N. Y. Adv.

Full Moon and Baldness

Theodore H. Morgan, a federal customs inspector at Philadelphia, adopted the policy of having his hair cut only when the moon was full, as a means of warding off baldness and he asserts: the effect was so noticeable that half a dozen men in his organization did likewise with good results.

All nature is but art.

Stomach or Liver Trouble?

Bakersfield, Calif.—"I have used Dr. Pierce's Golden Medical Discovery for

poor blood, torpid liver and stomach disorder and there is nothing in the world like it to get the human machine clear of the poisons and to get every organ of the body feeling strong and healthy. I know what I am talking about for I was hardly able at times to get to my work, feeling mean, sick and rundown all the time. I have never had a return of this condition."—H. H. Cross, 2416 Emidio St. All dealers. Tablets or liquid. You can get a trial pkg. of Pierce's by sending 10c to Doctor Pierce's Clinic, in Buffalo, N. Y.

MISSION BEACH
NEWS NOTES

Continued from Page 1

Mr. Charles Burke has his house on the corner of Strandway and Vanatie court in good repair again.

The cottages of J. E. Lowerson and Harry K. Turner, which were badly damaged by the storm, are rapidly being put into shape and will be better than ever.

A number of the property owners on the ocean front are repairing the board walks in front of their holdings.

William Camby has started a new house at 833 Santa Clara place. Mr. F. Kinnings is breaking ground at 830 Ostend court. Mrs. E. Hamilton has taken out a permit for a residence at 3735 Ocean Front.

Mrs. L. Brown and Miss Lorain Brown, who have been spending a few weeks in Verona court, have left for Los Angeles, from whence they will sail on the steamer "Manchuria" for New York. There they will embark on the "Leviathan" for a trip to Europe and the British Isles.

Mr. T. E. Snowden, of Wichita, Kansas, has joined his family at 826 El Carmel place.

Mrs. A. E. Mathewson has leased her hotel in El Centro and is opening the San Juan hotel here.

Mr. Harvey H. Hile and family have taken the Twain cottage at 710 Yarmouth court for the summer. Mr. Hile is engineer for the R. E. Hazzard Construction company.

Mr. H. G. Broadwell has rented the Gearhart cottage on Windmere court for a year. Mr. Broadwell is employed at the naval training station.

Mr. and Mrs. Harry T. Rees, of San Diego, have leased the Camerlengo cottage at 729 Verona court for a year.

Mr. and Mrs. W. Hobday have leased the Sutton cottage on the corner of Whiting and Highway for a year.

Mr. and Mrs. R. P. Furget, of La Jolla, have rented the Goeltz cottage at 807 Windmere court.

O. B. LIBRARY

MARGARET RANKIN, LIBRARIAN

Isn't it tantalizing not to know how to pronounce an author's name? We may see an apparently simple name like Onions and then be astounded to find that the author spurns all relation to the lowly garden variety and pronounces it O-nigh-uns with the accent on the second syllable. Following is a list of names with information concerning pronunciation carefully gathered by the Harwell library. Accented syllables are capitalized:

Stacy Aumonius—O-Mon-ye.
Stephen Benet—Ben-Ay.
Johan Boyer—Yohan Boyer.
Phyllis Bottome—"tome" like home.
John Buchan—Buck-an.
James Branch Cabell—Like "rabble."

Willa Cather—Put an Irish "h" in Mather and rhyme with that.
Royal Cortissoz—Cor-Tee-suz.
Katherine Gerould—Gerald.
Joseph Hergesheimer—Four syllables; ei-like long i.
Emerson Hough—Like huff.
Sheila Kaye-Smith—Shee-la Kay-Smith.

Gaston Leroux—Le-Roo.
Arthur Machen—Mak-en.
Somerset Maugham—Mawm.
Marie Oemler—Urm-ler.
Baroness Orczy—Ort-zy.
Michael Pupin—Pu-Peen.
Victor Page—Pa-Zhay.
Mary Wemyss—Weems.

Books by these authors may be found at the O. B. library on Abbott street, across from the Merry-go-round.

"CONEY RACE" NEW

M. B. AMUSEMENT DEVICE

The most recent addition to the amusement devices at the Amusement Center is the "Coney Race," just completed. It is being operated by R. E. Bedford, E. P. Andrieu and C. C. Smithson, all well known in the concession business. Bedford, who is better known as "Bob," is a former umpire in the Pacific Coast league.

BANK BANDIT CONFESSES

TO O. B. HOLDUP

Further disclosures of the alleged criminal activities of Gene Thomas, bank bandit, were made this week when he is reported to have admitted identity as one of the thugs who held up A. Greenleaf, 5050 Lotus street, on the night of March 14, at the Ocean Beach railway junction, foot of Bacon street.

PROTEST REGISTERED

AGAINST OUTSIDERS USING

MISSION BEACH SEWER

The members of the Mission Beach Chamber of Commerce have entered a protest to the city council against the use of the Mission Beach sewer system by Pacific Beach, Crown Point, the Nettlehip subdivision, and the new addition north of Mission Beach now being opened up by Fred T. Scripps. The entire cost of the system has been assessed against Mission Beach properties, it is complained, and the use of the sewer by outsiders is not desired.

APPOINTMENT CONFIRMED

The city council confirmed the appointment of George W. Marston to fill the vacancy on the park board, caused by the resignation of John F. Forward recently.

KFVW RADIO STATION

OFFICIALLY WENT ON AIR

LAST SATURDAY

An elaborate program, sponsored by the city of San Diego, marked the formal official opening of radio station KFVW, owned, and operated by the Airfan Radio corporation of San Diego, California. This station is the culmination of efforts started several months ago and its equipment is said to be the very last word in radio development. Its inauguration proved greatly successful in every way.

POINT LOMA ROBBERY

The home of Mrs. W. A. Tregler, at 2784 Chatsworth boulevard, and the residence of R. E. Bach, at 3219 Goldsmith street, Point Loma, were burglarized early this week by a "hard-boiled hobo" on the pretense of looking for work.

NEW TELEPHONE NUMBERS

Continued from Page 1

ond letters are capitalized as a part of the telephone number, this uncertainty is increased. For this reason, Bayview has been selected as the most suitable prefix for the telephones now served by the Point Loma office.

ANOTHER NEW PREFIX

"A new prefix, 'Franklin,' is also established in the April directory, in connection with the listings of a limited number of subscribers located in the business district. This prefix will be extensively used in future number assignments, and the November directory will contain many 'Franklin' numbers."

L. E. Neal has been issued a permit for a \$6000 residence at 4747 Voltaire street.
